Product description

Powerpuff Girls ceramic mug - licensed product

The Powerpuff Girls is a popular American animated series that tells the story of three little superheroes: Blossom, Bubbles and Buttercup. They were created in a laboratory by a scientist named Professor Utonium. Thanks to an unusual mix of sugar, spice and everything nice, and a little blunder with chemical X, the girls gained extraordinary powers and became the protectors of the city of Townsville.

We present a beautiful mug made of the highest quality ceramics, characterized by an elegant standard design. Its appropriate size ensures comfort when preparing your favorite drinks. Now in an absolutely brilliant licensed version, every drink in this cup looks even better, adding a unique atmosphere to your drinking experience.

The Premium model of this mug is distinguished by a minimalist design, hit colors and precise workmanship, which makes it extremely useful and stylish. Whether it's morning coffee, afternoon tea or hot chocolate in the evening, this mug will highlight every drinking moment.

Maximum durability is one of the key advantages of this cup. The graphics have been embedded in the structure of the cup, making it extremely resistant to scratches and abrasion. You don't have to worry about it losing its charm even after repeated use.

Gadget at a glance:
