Display Frame - Elite Black 7 x 7 cm

Number

092,5950.66.001

Product description

Display Frame - Elite Black 7 x 7 cm

A series of elegant product display frames that present the product in an entirely different way than the regular displays. All one has to do is place the chosen item between two sheets of silicone transparent film. The display makes it look like floating in the air.

The biggest advantage of the Elite frames is the possibility of changing the item inside depending on your needs, which makes it highly useful. You can change the product in the display at any time.

Classic 5950.66.001 model is entirely made of plastic. The size is suitable for the whole range of products, for example coins, pieces of jewellery, medals or small construction elements.

Dimensions of the product:10 x 10 x 3 cm

Dimensions of the window:7 x 7 cm

Size:0.16 kg

Minimum order quantity:1 piece

Stand/display:none
