Flexible Gray Silicone LED Candle - Warm Flickering Light for Any Occasion

Number	**090,153349**
EAN	**4029811486564**

Product description

Flexible Gray LED Candle from Silicone - Warm Flickering Light for Any Occasion.

This flexible gray LED candle made of silicone is a modern decoration that can be bent to fit any interior design. Its warm, flickering light perfectly imitates a flame, creating a cozy mood. Equipped with a timer function for 8 hours, so it works through the night and then automatically turns off. The candle is rechargeable via USB-C, making it a convenient and eco-friendly alternative to traditional candles.

Who this gadget is for:

- **For lovers of modern decorations:** Ideal for those who appreciate original, flexible solutions in home decor.
- **For environmentalists:** The reusable, USB-C rechargeable candle is an eco-friendly choice.
- **For those who care about convenience:** With a timer for 8 hours, the candle will automatically turn off, ensuring hassle-free use.
- **For fans of mood lighting:** Perfect for creating a cozy atmosphere in the living room, bedroom or dining room.

Gadget at a glance:

- **Flexible design:** Made of silicone that can be bent and molded as desired.
- **Warm, flickering light:** Imitates a realistic candle flame.
- **Timer function:** Automatically shuts off after 8 hours of use.
- **USB-C charging:** Includes a 1m cable.
- **Battery:** 8mA Ni-HM (built-in)
- **Safety:** Flexible and durable material ensures safe use.
- **Ease of use:** Features an on/off switch and built-in battery with low power consumption.
