Elegant Marine Barometer

Number	19,016169
EAN	8431649016169

Product description

Elegant Marine Barometer

A nautical barometer that allows you to measure atmospheric pressure and predict the weather. The barometer is made of high-quality materials. Its characteristic feature is the high quality of measurements.

This classic, stylish barometer is also great as an elegant decorative element in rooms in a cabinet, retro or colonial style.

The corners of the frame are finished in plated brass, as is the dial and rudder with a hanging bell. It looks much better in nature than in the photo and is ideal for a subdued home where marine character dominates.

The barometer can be hung on the wall - it has a hole for a nail on the back.
