Product description

Decorative figure Benji the Elephant - metal

The elephant is a majestic creature that symbolizes power, immutability, memory and wisdom. In many cultures of the world he has been equated with divinity and royal power. In Hinduism, the elephant carries the world, and the god of happiness, science and literature - Ganesha is depicted as an elephant or a man with an elephant head. We believe that an elephant with a trunk in the air brings good luck, which is why this amulet could not be missing from our offer. Decorative figure Benji the Elephant is a modern version of the good luck talisman. The minimalist, slightly symbolic form of the figurine will work as a decoration in modern or eclectic interiors. The brass color of the ornament is a hit in itself, which perfectly harmonizes with classic colors, such as white or black, and with bold, fashionable shades of navy blue and green. Benji the Elephant figurine is a cute little thing that you can give to loved ones who you wish them luck. It will also work as a gift from the heart for an animal lover.
