### Product description

#### Lace bathrobe Sheer pink 2XL

A lace bathrobe is a synonym of femininity, which, while covering the body, at the same time attracts the eye to it. The Sheer model impresses with its unique colors, softness of the material and tasteful cut. The robe has long sleeves and a shiny ribbon tie at the waist. It is made of polyamide - a material with an extremely pleasant texture to the body. The cover reaches to the middle of the thighs, subtly covering the hips and buttocks. It has a classic pleat neckline, finished with a glossy ribbon. Thanks to the classic cut and lace with frayed edges, it looks predatory, seductive and elegant at the same time.

The Sheer robe fits perfectly on the body. It can be worn with underwear, on a nightgown or even on bare skin, because the soft lace does not scratch and does not cause discomfort. The model in an interesting, noble shade of pink makes the night outfit look unique and adds character. The dot above the i is tied with a bow under the bust, thanks to which the robe is tempting and gives charm.
