Number	090,57-1251
EAN	4029811469376

Product description

Color changing LED moon light

Introducing a unique moon shaped color changing lamp. This charming lamp with a diameter of about 10 cm will not only be an interesting decorative element, but also create a magical atmosphere in your room.

The lamp has different lighting modes that allow you to adjust the mood and atmosphere to your preferences. You can choose from a variety of colors or use the color changing mode to add a dynamic effect to your space. The set includes a remote control to set the lighting modes of the lamp.

Thanks to the supplied USB cable, you can easily power the lamp by connecting it to a computer, USB charger or other device with a USB port. It is a convenient solution that will provide you with constant lighting and the ability to enjoy the magic of this lamp.

The lamp is not only a great decorative addition to the bedroom, living room or office, but also a great gift for lovers of astronomy, travel and space.
