Product description

Bondage Fetish erotic collar with chain - black

A stylish set consisting of a collar and leash made of artificial leather, which is characterized by a black metallic finish. Two leather strap loops prevent the end of the strap from fluttering, making it more comfortable to wear. The collar is plastic and does not require special care, which distinguishes it from real leather. The buckle closure allows you to adjust the circumference from 14 to 18.5 inches, making it suitable for both men and women.

The set also includes a strong metal D-ring that allows it to be connected to almost any chain or leash, allowing for complete personalization of the bondage experience. The collar can be worn alone for a sexy and submissive look, or paired with a leash for exciting bondage fun.

In addition, the set includes a 51-inch weight with a rotating clip for effective control. The hand loop makes it easier to hold the leash and provides greater comfort during use. The kit is perfect for bondage and bondage adventures in the bedroom.)
