Product description

Chastity belt for men

Lock-a-Willy was made with a nod to the original chastity belt that was worn to keep a man or woman from having sex. When you can't have sex for a while, the tension builds up and the discharge is all the more intense. The chastity belt of the past was also used to prevent adultery. If a man or woman traveled with a chastity belt, sex was not possible.

Lock-a-Willy is a mild twist on the old man's chastity belt. The material is made of soft silicone, which ensures comfort for a long time. Since the penis is closed, you cannot have sex or masturbate, it is possible to pee and shower, and since Lock-a-Willy is made of flexible material it is also hygienic.

There is a metal combination lock and 6 plastic clasps that can be cut off if the period of abstinence is over. To make it even more fun, you can also ask your partner to set a numeric code so that you are completely in line with your partner's wishes and desires. How exciting is that!

Sexual cessation and orgasm build intensity. When you give your partner control over your sexual activities, it strengthens the bond with each other. Enjoy the fact that they both get more and more excited when there is no sex. Until he is fired!

The adjustable set includes 3 rings, which makes it comfortable for everyone.
