Amphitrite Swimsuit Red S/M

Number	24,446025
EAN	5907699446025

Product description

Amphitrite Swimsuit Red S/M

The swimsuit consists of two parts: a bra and panties, made of a material consisting of 88% polyester and 12% elastane.

The bra is distinguished by its subtlety and original design, which refers to the form of a bardotka bra. An interesting accent was added in the use of circular connections of the back and front parts on the hips and between the cups. In addition, the ruffles of the material on the bra optically enlarge the bust, and are also a decorative element. The bra allows you to expose your shoulders and back, which adds to its sensuality.

Gadget at a glance:

- swimsuit
- model Amphitrite
- size S/M
