Product description

Zodiac sign - Taurus - magnet, enamel

The stamp is made using the enamel sign technique, exactly the same as the plates with the names of streets or offices. The technique is extremely resistant to weather conditions. Enamelling is one of the oldest and most durable techniques of artistic craftsmanship, known already in the first millennium BC. The main element of the enamel is powdered glass melted at high temperature, colored with metal oxides and applied to a metal substrate. A glassy, durable and colored coating is created and can be sanded and polished. The zodiac sign will look great on a refrigerator or any other metal surface. The elegant design makes this stamp a very cool decorative element associated with the person who hung it.
